

CONTINUOUS ALUMINIUM SHEATH EXTRUSION LINE

CONFORM EXTRUSION LINE

Application

MV cables with seamless aluminium sheath.
 HV cables with seamless aluminium sheath.
 EHV cables with seamless aluminium sheath.

Key Features

Continuous extrusion process for seamless aluminium sheath.
 Suitable for HV and EHV cable aluminium sheath production.
 Stable aluminium tube forming with customized line configuration.

Model	Rod Diameter (mm)	Extrusion (kg/h)	Aluminium Tube O.D. (mm)	Aluminium Tube Thickness (mm)	Corrugating Pitch (mm)	Corrugation Depth (mm)	Machine Size (L×W) (m)
LBF420*2	Φ9.5	400	Φ60~Φ170	1.5~4.0	10~50	2~8	62×11
LBF500*2		480	Φ60~Φ210	2.0~5.0		2~10
