

HORIZONTAL LAYING-UP MACHINE

FOR SUBMARINE CABLES AND UMBILICAL CABLES

Application

Laying-up of submarine power cables and umbilical cables.

Key Features

Horizontal laying-up system for submarine and umbilical cables.

Large rotating wheel design for heavy cable structures.

Customizable layout for complex cable assembly processes.

Wheel O.D. (m)	Drum Capacity Each (t)	Max. Rotation Speed (rpm)
9.5	20~50	4
